

Call for Charity Programs' Funding

Announcement and Guidelines

The International Women's Association of Yerevan (IWAY) opens its annual funding call for the implementation of charity programs. The deadline for applying is **August 31, 2022**. The application must be completed in English, using the attached IWAY application form.

Interested organizations, which must be registered in the Republic of Armenia, should submit applications via email to IWAYcharities@gmail.com.

The IWAY Charity Committee reviews the received applications in September; after which, in **October**, the committee presents the recommended projects to IWAY members at a regular scheduled IWAY members' meeting. Members may prefer to visit the proposed projects' sites before making a final decision. Funds will then become available for the selected projects starting from **November 1, 2022**.

Your proposal should:

- Comply with IWAY's focus on giving priority to projects, which improve the lives of women, children, and families in Armenia, especially those living in remote or border villages.
- Provide data-based evidence of the need for the project.
- Describe the impacted community.
- Describe the impact on a large scale of the target population.
- Demonstrate support from the local community or government.
- Describe how the proposed activity will be sustained after IWAY funding is complete.
- Show evidence of your organization's successful track record on executing similar types of projects.
- Explain the organization's capacity to accurately track and report on expenditures and project activities.
- Use funds for direct provision of goods and services, rather than for administration. IWAY funds projects, but the community must provide any labor required .
- Show existing and prior support from other donors or funding sources if applicable, both for the organization and for the proposed project.
- Include concrete and data-based expected outcomes for the project.
